What are some challenges/issues?

1. Students don't recognize why they are in class
2. High-stakes situation
3. Cognitive laziness
4. They think they know best
5. They think faculty are responsible for learning
6. Students may not see the application to real life

What can faculty do?

1. Opportunities to reflect
2. Support
3. Opportunities to fail and redeem
4. Opportunities to practice
5. Competencies, skills, and behaviors as well as content
6. Be explicit about expectations

How do we motivate students to take ownership of their own learning?

Who are your partners/allies? What resources are needed?

Q1

What can students do?

1. Reflections
2. Be brave
